

Here's to the Aussie Girls...

Here's to the land of fires and floods
The land of snakes and roos...
Here's to the land of deserts and beaches
And here's to the Aussie girls.

Here's to the girls who braved the storm
To the ones who danced in the rain
Here's to the ones who survived the drought
And here's to the Aussie girls.

Here's to the girls who've run bare foot
To the ones who wished on stars
Here's to the ones who love their land
And here's to the Aussie girls.

Here's to the girls who've lost someone
To the ones who have and still smile
Here's to the ones who are brave and strong
And here's to the Aussie girls.

Here's to the girls who work,
To the ones who know how to play
Here's to the ones who know how to have *fun*
And here's to the Aussie girls.

Here's to the girls who love their family
To the ones who miss their friends
Here's to the ones who believe in miracles
And here's to the Aussie girls.

Here's to the girls who are different
To the ones who never change
Here's to the ones who never went with the flow
And here's to the Aussie girls.

Here's to the girls who stand together
To the ones who are friends forever
Here's to the ones who believe in mateship
And here's to the Aussie girls.

Here's to the girls who will play in mud
To the ones who swim in the creek
Here's to the ones who don't care what you think
And here's to the Aussie girls.

Here's to the girls who will always smile
To the ones who are breaking inside
Here's to the ones who still stand strong
And here's to the Aussie girls.

Here's to the girls who love their country
To the ones who stand tall and proud
Here's to the ones who fight for what's right
And here's to the Aussie girls.

Here's to the girls who braved floods
To the ones who have seen worse
Here's to the ones who will help
And here's to the Aussie girls.

Here's to those who have faith
Here's to the responsible ones
Here's to the girls who miss being a child
And here's to the ones who won't say
Here's to the girls who had to take charge
To the girls who knew what to do
Here's to the ones who grew up like me.
And here's to the Aussie girls.
